

Traffic Control Person (TCP)

Course Rate: \$65 **Member**
 \$75 **Non-Member**

On site course rates available

Course Length: ½ Day

Min # of Participants: 12

Course Format

This course was developed by a Provincial Committee with representatives from the Department of Transportation, WorkSafeNB (formerly WHSCC), Safety Services New Brunswick and Industry.

Course Objectives

The course objectives are three fold: to teach and train the traffic control person in the proper methods and techniques of stopping, slowing and directing traffic; to make participants aware of the potential results of poor traffic control procedures including death and injuries to the traveling public, fellow workers and themselves; and thirdly, to reduce the possibility of damage to equipment, vehicles and materials.

Who Should Attend?

- Traffic control persons at road construction/repair sites.

Course Outline

- Importance of the Traffic Control person
- Personal Protective Equipment
- Signaling Procedures
- Proper Dress and Equipment for Daylight/Night-time
- Position of Signaler - Construction/Repair Sites
- Size and Type of Paddles
- Procedures to Stop, Slow and Direct Traffic
- General Instructions

Candidates are required to pass a written/oral Qualification Test (80%) demonstrating their knowledge and skills in stopping, slowing and directing traffic. Candidates will also be required to complete a three day internship demonstrating the skills of Signalling.
