

Work Area Traffic Control Manual (WATCM)

Course Rate: **\$125 Member**
 \$150 Non-Member

Course Length: **1 Day**
Min # of Participants: **12**

On site course rates available

Course Format

The 1-day **Work Area Protection** is delivered utilizing material developed by SSNB in cooperation with BellAlaint, WorkSafeNB and the Department of Transportation. The Dept of Transportation (DOT) 2009 WATCM manual can either be downloaded from the DOT website (<http://www.gnb.ca/0113/publications/watcm-e.asp>) or can be provided at cost.

Course Objectives

Information on current regulations and laws of the workplace are provided along with the responsibilities of Traffic Control Persons, who safely control traffic at the work site. Knowledgeable instructors deliver the program using lectures, quizzes, Student Materials and a powerpoint presentation. This course was developed to provide utility workers with information to properly protect their area of work from potential hazards involving other highway users.

Course Outline

- The importance of doing the job right, corporate image, etc.
- The current rules and regulations per the OHS Act, DOT
- Signing principles and procedures
- Work area protection definitions
- Types of signs
- Requirement of traffic control persons
- Signing and coning practices
