Price does not include materials fee and instructor expenses

Course Format

This **Forklift** program is a comprehensive training course offered by Safety Services New Brunswick and designed for both new and experienced lift truck operators. Knowledge and skill training in lift truck safe operation is provided to candidates through a format of videos, overheads, group discussions and practical performance exercises.

Also offered is a 1-day Forklift Refresher course by request. The 1-day refresher course consists of both a theory and a practical component and is offered to current operators. This is NOT an entry level course.

Participant will complete a series of exercises after watching videos. The course includes three written exams and each has a required pass mark of 80%. Upon successful completion participants will receive a certificate with a 3-year expiry.

Maximum number of participants per session (for both 1 day and 2 days) – 12.

Course Objectives

This course focuses on safe practices and procedures for operating forklifts. Safety Services New Brunswick instructors are familiar with a wide variety of forklift equipment. Practical exercises will be completed on-site utilizing a company forklift.

Course Outline

- Forklift Operations
- Self Appraisal
- Pre-Start Safety Inspection
- Design Considerations
- Picking Up the Load
- Moving the Truck
- Setting Down the Load
