

Course Format – 1 Day

Safety Services New Brunswick's one-day **Arboricultural Electrical Safety Course** (known as *Green Card*) meets the requirements of current legislation and the New Brunswick Power Corporation tendering process. The entire program is in layman's terms, presented in a format of videos, power point and group discussion. Instructors for this program have in excess of 100 collective years of experience.

Candidates are required to pass a written/oral Qualification Test (75%) demonstrating their knowledge and skills and a certificate with a 3-year expiry will be issued after successful completion.

Maximum number of participants per session – 15.

Minimum number charged for on a sponsored course – 8.

Course Objectives

This program prepares those working near power structures, such as transmission and distribution lines, to protect their safety and the health and safety of other workers. This is a required course as mandated by the New Brunswick Occupational Health and Safety Act and Regulation Part XIX Section 289(1) and Part XXII, Section 369.

Course Outline

- Electrical AC/DC Theory Basics
- Powerline Identification
- Personal Protective Equipment
- Rules and Regulations
- Safe Limits of Approach
