

Course Format – 1/2 Day

This course has been developed to educate employees on confined spaces and how to work in them. The course involves lecture, class discussion, group participation, and audio visuals.

Maximum number of participants per session – 12.

Course Objectives

The participants will learn about the hazards of working in confined spaces, and the protective means and equipment that helps endure a safer working environment.

Who Should Attend?

- Managers and supervisors
- Safety officers
- Employees required to enter confined spaces and attendants

Course Outline

The students will be led through the following areas that would be necessary for entry procedures:

- Introduction to confined spaces
- Hazards
- Atmospheres
- Controls
- Ventilation
- Legislation
- Responsibilities
- Entry permits
- Equipment use and maintenance
- Rescue

The students are encouraged to bring their company's confined space entry procedures for review during the sessions.
